Tab 1: presentation.html · Tab 2: wheel.html (live counter)	← → = nav · space = next · F = fullscreen	Google Photos cycling 4 slides	Arterburn + Dysfunction notes
1 Doors / mingling T+0 → T+15 DO TV cycles slides 1–4 · deck on slide 1 · wheel.html open in tab 2 (counter live) SAY (informal) "Scan the QR — story's on your phone before I say a word."			
2 Welcome T+15 (~1 min) DO Deck → slide 2 · TV stays on slide 1 SAY "Welcome to Metabolic Momentum. The most important question in fat loss: what kind of weight are you actually losing? Because not all of it is the same."			
3 Hand-raise opener T+17 (~2 min) DO Deck → slide 3 · tap space between each prompt to reveal SAY "Raise your hand if... ...you've lost weight before and gained it back. ...you've ended a diet smaller but feeling weaker. ...you don't know what your body fat % is. ...you'd take 20 lbs off if it cost you nothing."			
4 Get them on the hub T+20 (~1 min) DO Deck → slide 4 (hub QR) · TV → slide 1 SAY "Pull out your phones. Camera at the QR. That's the hub — Cearra, Kolby, the science, and the raffle. Get there now so you can follow along when I point at numbers."			
5 Cearra's story T+22 (~5 min) 5A · DAY ONE Deck → slide 5 · TV → slide 2 (Cearra) "August 2025. 217 lb. Body fat 52% — more than half of what was on the scale wasn't her, it was fat tissue. Hold onto that." 5B · THEN & NOW Deck → slide 6 "Eight months. Body fat down 12 points. Lean mass actually up 1.2 lb. Skeletal muscle held. This is recomposition." 5C · CHART Deck → slide 7 "This is the picture. Orange — weight, crashing. Red — body fat %, crashing. Green — lean mass, dead flat. Most diets take all three down together. Cearra didn't."			
			6 Kolby's story T+27 (~5 min) 6A · DAY ONE Deck → slide 8 · TV → slide 3 (Kolby) "Same August. Kolby — 350 lbs, body fat 44.6%. Different starting point, same protocol." 6B · THEN & NOW Deck → slide 9 "95 pounds gone. Body fat halved — 44.6 down to 27%. Skeletal muscle UP 2 pounds. Read that twice." 6C · CHART Deck → slide 10 "Same picture, different person. Orange crashing, red crashing, green flat at 184. He didn't shrink. He recomposed."
			7 The science T+32 (~5 min) DO Stay on slide 10 (chart as anchor) · printed notes on lectern SAY [Your script.] Metabolic dysfunction → why most diets fail. Arterburn 2019 → what works. "For the deep dive, the Why It Works page on the hub has it written up."
			8 Last call for the raffle T+37 (~2 min) DO TV → slide 4 (raffle) · flip laptop to wheel.html tab · read entry count out loud SAY "We've got [N] entries in the wheel. Anyone who hasn't entered — scan the QR on the screen, takes 30 seconds. Prize: the same RENPHO scale Cearra and Kolby use to track these numbers every week. Drawing in two minutes."
			9 The drawing T+39 (~2 min) DO Project wheel.html full screen · click SPIN · winner banner appears SAY "Last refresh — [N] entries. Spinning... Winner — [name]! Come grab your scale."
			10 Wrap T+42 (~2 min) DO Deck → slide 11 ("Let's Go.") · TV → slide 1 SAY "Two takeaways. One — fat loss without lean loss is real, you just saw two examples. Two — if you want to do this yourself or help others do it, the apprentice checkbox on the raffle was your signal. We'll be in touch this week. Thanks for being here."
